

Asuris 2021 Annual Overview

Letter from the president

In a year full of challenges, Asuris continued its commitment to putting people first. For nearly 90 years, we've helped keep Eastern Washington healthy through customer service, financial stewardship and service to our community. We kept that promise in 2021.

Our long legacy provides stability and certainty, but we also remain focused on innovation. We transform how our members access and experience health care through cutting-edge partnerships with providers and investments in technology that make it easier for you to get the care you need.

We support local nonprofits that are advancing health equity by addressing the socioeconomic challenges that prevent people from living their healthiest lives. This includes a focus

on organizations that are increasing access to behavioral health care during a growing crisis in mental health.

Our employees are based in Spokane and Yakima, and we care about the health of our neighbors—not just because it's our job but because this is our home.

Thank you for your trust in us. We look forward to partnering with you as we work together on a bright future.

Brady D. Cass
President
Asuris Northwest Health
