ABA Concurrent Request				
Original start date of ABA:	Current Authorization Number:			
<b>Expedited request</b> □ Defined as: when the member or his/her provider be could place the member's life, health, or ability to regexplanation required:	pelieves that waiting for a decision within the standard timeframe gain maximum function in serious jeopardy.			
<b>Note:</b> There is very little evidence to support the efficacy of ABA for people 13 years and older. If you are requesting ABA for someone 13 or older, please provide additional justification for this (e.g., severe risk of injury to self or others related to ASD or self-injurious stereotypical movement disorder).				
Clinical updates and progress:				

## **Documentation:**

NOTE: For FEP policies, clinical notes must be included with request to demonstrate that medical necessity criteria are met.

Please include a completed Individualized Treatment Plan (ITP) with your request that includes:

- 1. A detailed description of specific behaviors targeted for therapy. Targeted behaviors must be those which prevent the member from participating in age-appropriate home or community activities and/or are presenting a safety risk to self or others; and
- 2. For each targeted behavior, an objective baseline measurement using standardized instruments that include frequency, intensity, and duration; and
- 3. A detailed description of treatment interventions and techniques specific to each of the targeted behaviors, including the frequency and duration of treatment for each intervention which is designed to improve the member's ability to participate in age-appropriate home or community activities and/or reduce the safety risk to self or others; and
- 4. Where there was a prior course of ABA therapy, documentation will specify the anticipated benefit of an additional course of treatment; and
- 5. A description of training and participation of family (parents, legal guardians and/or active caretakers as appropriate) in setting baseline and demonstrating progress toward treatment goals that directly support member's ITP; and
- 6. Clinical justification for the number of days per week and hours per day of direct ABA services provided to the member and the family, and the hours per week of direct face-to-face supervision of the treatment being delivered and observation of the child in their natural setting; and

7.	vation of the child in the neasurable discharge a	•		-	
	argeted behaviors and se include details such	•	•	olan is address these	

Please indicate progress toward each of the defined goals in the ITP. Please document progress as it relates to each of the targeted behaviors on the ITP.
Objective measurements using standardized instruments that include frequency, intensity, and duration and evaluation. Please include details such as dates, measurements used, and scores.
Objective measurements using standardized instruments that include frequency, intensity, and duration and evaluation. Please include details such as dates, measurements used, and scores.
Objective measurements using standardized instruments that include frequency, intensity, and duration and evaluation. Please include details such as dates, measurements used, and scores.
Objective measurements using standardized instruments that include frequency, intensity, and duration and evaluation. Please include details such as dates, measurements used, and scores.
