

# Bringing value to your whole team

You make a lot of decisions, and one of the most important is choosing the right health plans for your employees. Asuris is here to make it easy for you with options to meet the needs of every individual on your team.

## What you get

**Local account & customer service:** Our in-state team is here with personalized support, including Customer Service available over the phone or via chat on our website or app.

**A variety of plans:** From our Asuris Virtual Value™ plans to low-cost HSAs to more comprehensive offerings, you'll find a wide range of choices for you, your employees and their families.

## What your employees get

**Virtual care:** All our plans cover virtual visits, allowing employees to connect with board-certified physicians 24/7 and schedule appointments with behavioral health clinicians. With our Asuris Virtual Value plans, your employees get unlimited virtual visits with a \$0 copay. As an added benefit, they have options for Virtual Primary Care (VPC), which includes primary, urgent and behavioral health virtual visits.

**Behavioral health support:** Mental health matters, now more than ever. Make sure everyone on your team has access to the care they need with our range of solutions—from self-guided support\* to in-person visits and virtual therapy.

**Wellness rewards:** With Asuris, it pays to live well. It all starts with our personalized well-being solution, Asuris Motivate®, where employees can earn a reward for completing an online Health Assessment. And when they get certain preventive care screenings and exams, they'll earn even more rewards—up to \$100. And because working on your health is more fun together, your employees' spouse or partner\*\* can earn the same incentives.

**New! Virtual muscle & joint support:** Employees can get help managing mobility and pain in joints, spine and muscles with a personalized virtual exercise program. Based on specific health conditions, your employees may have access to a customized care plan including guided exercise therapy, one-on-one video coaching with a care team, curated health education and behavior change support.

**Dental4Health:** Employees who are on an Asuris dental plan and are diagnosed with any of nine conditions will receive enhanced medical-dental integration. They automatically get additional benefits at no cost, and services don't count toward their annual maximum.

**Advice from a nurse:** With [Advice24](#), employees can connect with a registered nurse who can assess symptoms and help decide on next steps.

**Discounts on health-related products & services:** [Asuris Advantages](#) offers savings on LASIK surgery, gym memberships, fitness devices and more. Plus, enjoy 20% off on Walgreens over-the-counter health and wellness products.

**Medication support:** Through their [asuris.com](#) account, employees can research and compare medications for effectiveness, costs and side effects; connect with a licensed pharmacist; set up medication home delivery and more.

**Robust pharmacy options:** Our network includes convenient home-delivery options and pharmacies across the country, including Walgreens, Albertsons, Kroger and Rite Aid.

**Programs and discounts are not insurance, but are offered in addition to your medical plan.**

Talk to your sales representative about other high-value solutions like dental, vision and the Employee Assistance Program (EAP) to give your employees health coverage from head to toe.
