

# Asuris 2022 Annual Overview

## Letter from the president

We were fortunate in 2022 to see Eastern Washington on the upswing as the pandemic began to recede. At Asuris, it was an opportunity to maintain our commitment to keeping the communities we serve healthy and helping our members with compassion, investment and innovative solutions.

One of our members' greatest needs is behavioral health care. This past year, we added providers to our network, and we also offer virtual therapy and personalized care management to ensure members get the level of mental health care they need at the right time.

We equipped our members with digital tools they can use on [asuris.com](https://asuris.com) and the Asuris app to find care and resources, and we empowered them to make informed choices about their health.

Our philanthropic giving focused on partnerships with dynamic nonprofit organizations that are embedded in their communities to address the social determinants of health that prevent people from living their healthiest lives.

After nearly 90 years serving Eastern Washington, our financial stability and long legacy mean you can trust we'll be here to make your health care experience better for many years to come.

Brady D. Cass  
**President**  
Asuris Northwest Health

## 2022 in numbers

**89 years**

serving Eastern and Central Washington

**39,197**

people served

**\$154M**

in member premiums

**9,719**
