Section 1 – Introduction

This directory provides a list of our plan’s network providers.

As a member of our plan, you are not required to select a Primary Care Provider (PCP). Some services have lower cost sharing when delivered by a PCP. Our plan considers a physician (M.D. or D.O.), physician's assistant (P.A.), osteopathic physician’s assistant – certified (O.P.A.C.), or nurse practitioner (N.P.) with one of the following specialties to be a primary care provider:

- Adult Medicine
- Family Practice
- General Medicine
- Geriatric Medicine
- Gynecology
- Internal Medicine
- Obstetrics/Gynecology
- Pediatrics

The network providers listed in this directory have agreed to provide you with your health care, vision, and dental services. You may go to any of our network providers listed in this directory. If you have been going to one network provider, you are not required to continue to go to that same provider. Other providers are available in our network.

Out-of-network providers are under no obligation to treat Asuris Northwest Health enrollees, except in emergencies. For a decision about whether we will cover an out-of-network service, we encourage you or your provider to ask us for a pre-service organization determination before you receive the service. Please call our Customer Service department at 1-800-541-8981. Our hours are 8 a.m. to 8 p.m. Monday through Friday. From October 1 through March 31, our hours are 8 a.m. to 8 p.m. seven days a week. TTY users should call 711. Live online chat assistance is also available from 8 a.m. to 5 p.m. PT, Monday through Friday. To access online chat, sign in at asuris.com/medicare, select Contact us and click on Chat Now to connect with us.

You may also refer to your Evidence of Coverage (EOC) for more information, including the cost sharing that applies to out-of-network services.

You may choose to receive care from out-of-network providers who participate in Medicare. Our plan covers services from both in-network and out-of-network providers, as long as the services are covered benefits and are medically necessary. If you use an out-of-network provider, your share of the costs for your covered services may be higher, except when receiving emergency and urgent care services. We cannot pay a provider who does not participate in Medicare.

It is best to ask an out-of-network provider to bill us first. If you have already paid for the covered services, we will reimburse you for our share of the cost for those services. If an out-of-network provider sends you a bill you think we should pay, you may send it to us for processing. Please Contact Customer Service for more information.

You may obtain emergency services from the closest available provider and may obtain urgently needed services from any qualified provider when out of the plan’s service area or when network providers are unavailable.

Again, if you use an out-of-network provider, your share of the costs for your covered services may be higher, except when receiving emergency and urgent care services.

Our plan primary care and behavioral health service providers are required to meet minimum standards for appointment wait times (access to care). Dependent on the situation they are as follows:

- If your need is urgent or an emergency – immediately
- If your need is not urgent or an emergency, but medical attention is required – within 7 business days
- If your need is routine and preventive care – within 30 business days
