Choosing a plan: FAQ

Which metal level is right for me?

Gold plans are a good option if you expect to need a lot more than preventive care over the course of the year. On the opposite end, Bronze plans are a good fit if you're generally healthy and don't often need care. Silver plans strike a balance between premium and out-of-pocket cost and may qualify for cost-sharing savings if you're eligible.

Bronze level

This option offers a lighter premium and heavier out-of-pocket costs.

Silver level

This option balances premium and out-of-pocket costs.

Gold level

This option offers a heavier premium and lighter out-of-pocket costs.

Savings and subsidies

You may qualify for lower monthly premiums or extra savings on out-of-pocket costs if you meet certain income eligibility requirements. Here are two different ways to save:

Premium tax credits help you save by lowering your monthly insurance premium and are designed to help eligible individuals and families with low or moderate income afford health insurance.

Cost-sharing reductions provide savings on out-of-pocket costs, such as deductibles, copays and coinsurance. If you qualify, you must pick a plan in the Silver category to get these extra savings.

You can see whether you are eligible through OregonHealthCare.gov. If you don't qualify, it may be more affordable to shop directly with us at bridgespanhealth.com.
