

# Provider Reporting Insights & Analytics

Making population health management easier

# Meet and exceed contractual goals

Timely and accurate  
data-driven insights

Create and execute on  
data-driven action plans

Interactive  
member-level  
information

Performance insights  
improve quality and  
control costs

The Provider Reporting Insights & Analytics (PRIA) platform is a new self-service business analytics portal that:

- Unifies and simplifies access to multiple data sources
- Includes timely and interactive patient-level data
- Offers customizable dashboards and reporting

**PRIA helps you create and execute data-driven population health management interventions that improve quality while reducing total cost of care.**

# Improve your financial and quality performance

- Population health management
- Automated savings opportunities
- Care gap details

## Customize data to your needs

- Interactive, self-service reporting
- Information available at summary, claims and patient levels

# Today

vs

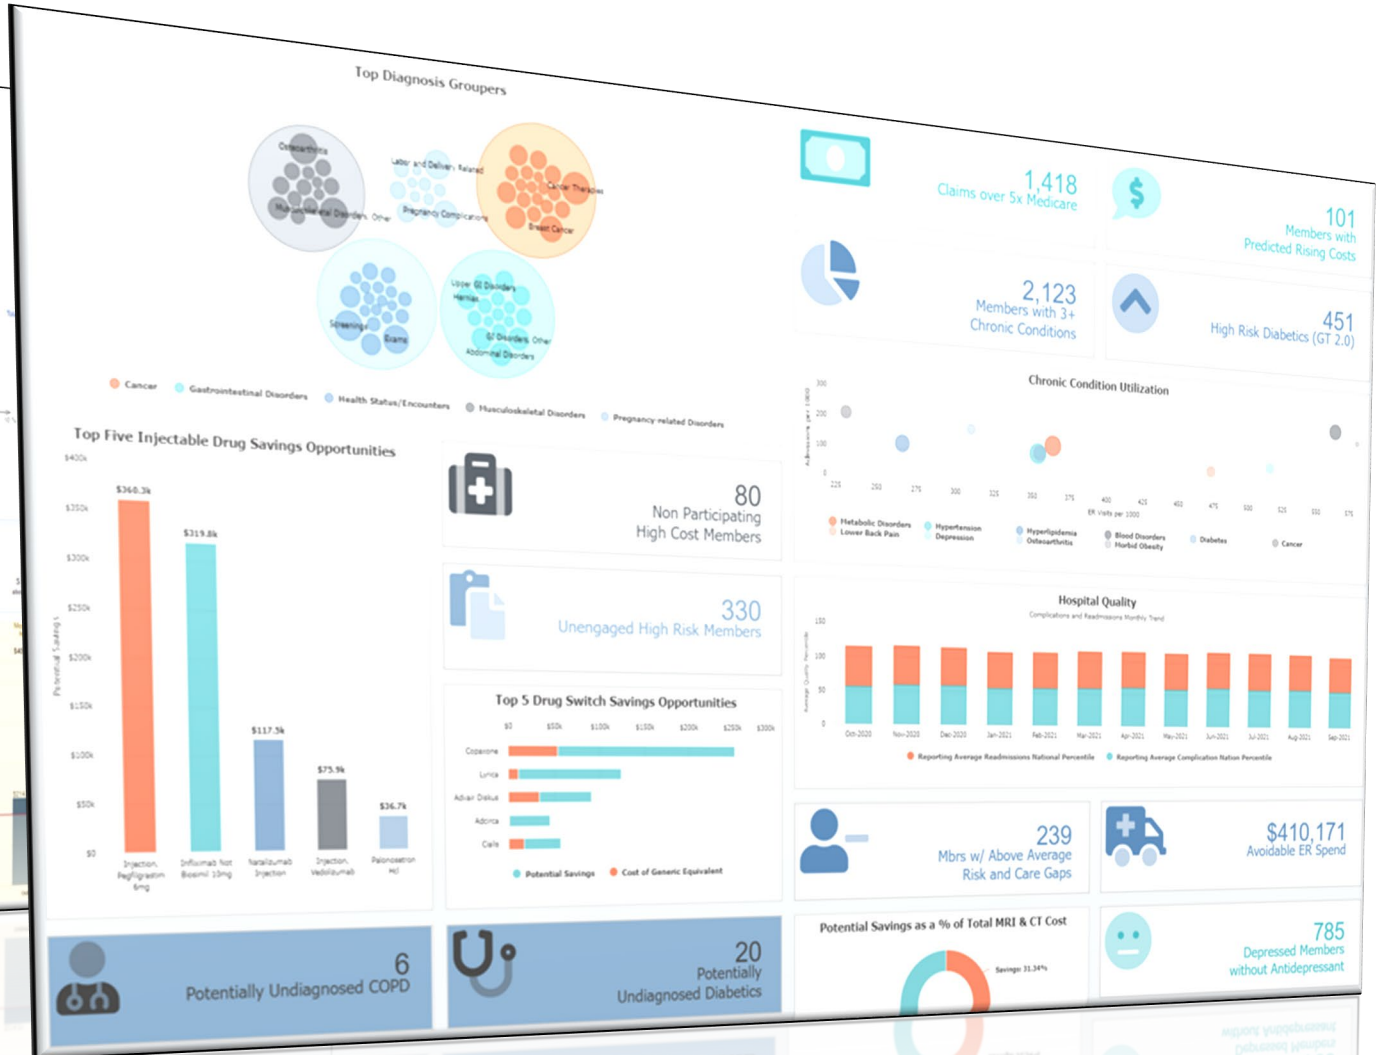

# The future with PRIA

- Significant time lag in reporting
- Multiple vehicles for data collection
- Patient-level data upon special request
- Manual report compilation
- Significant staff time required

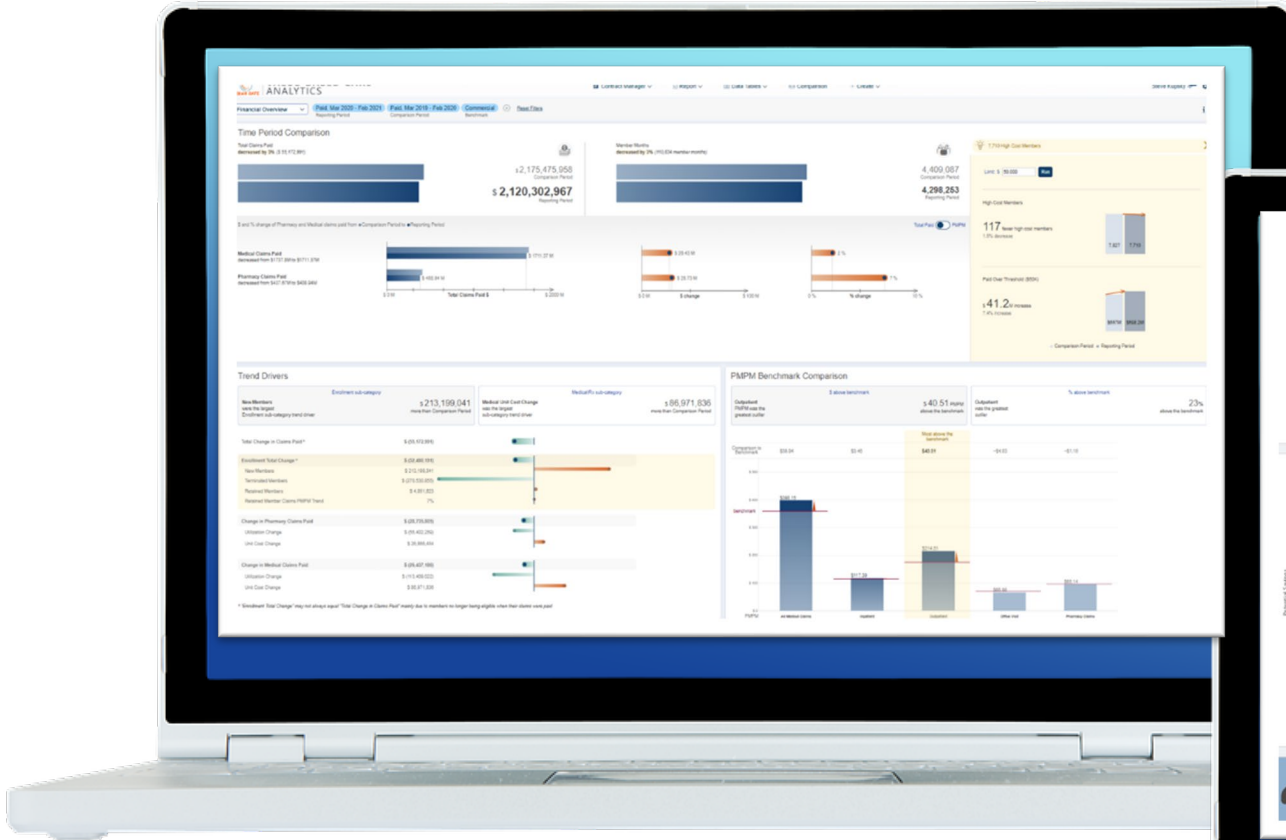

- Significantly reduced data lag time
- Unifies multiple data sources
- Patient-level data available in self-service platform
- Create interactive dashboards
- Download and share reports within minutes

Quickly identify care gaps and treatment opportunities that represent the greatest clinical and financial impact to your office with PRIA

# Interactive dashboards

# Self-service reports

# Initial reports available at launch

Report name	Description
<b>Clinical Identification</b>	High-risk and actionable members
<b>Cost and Utilization Variance</b>	Cost and utilization trends by service categories: Allowed PMPM (per member per month), unit cost and utilization/1000
<b>ER Utilizers</b>	Members with emergency room (ER) opportunity (high risk, avoidable visit, frequent utilizers)
<b>Financial Estimates</b>	Commercial financial estimates for Total Care and Accountable Health Network (AHN) agreements
<b>IP Utilizers</b>	Members with inpatient opportunity (high risk, avoidable visits, readmissions)
<b>Overview of Population</b>	Population overview with high-level member counts by attribution, age and gender
<b>Quality Contract</b>	Commercial quality program scores for Total Care and AHN agreements
<b>Quality Gaps</b>	Healthcare Effectiveness Data and Information Set® (HEDIS®) quality gaps for commercial Total Care and AHN agreements
<b>Savings Opportunity</b>	Areas with cost saving improvement opportunities within key standard areas and subcategories: avoidable ER, drug switch, imaging, injectable drugs, avoidable admits, and surgery

# Save time

# Save money

- Self-service application available when you need it
- On-demand, robust reporting
- Quickly create and share customized reports
- Timely and interactive patient-level data
- Reduce staff time requesting patient-level data

- Reduce total cost of care
- Create impactful population health interventions
- Offered at no cost to eligible providers
- Free training and ongoing support

# Use PRIA to:

- Visualize and generate clinical insights to drive high-value care, accelerate performance and control cost
- Create action plans to focus on health management interventions
- Easily navigate layers of population health information, from the organization to patient level
- Collaborate with your Provider Relations executive and support team to improve affordability and health outcomes of your patients

## Availability

Available to providers on alternative payment model (APM) arrangements with more than 1,000 attributed members.

Access on your schedule at your convenience.

# A tool for all

Whether you have a team of analysts, have superior actuarial skills, are a member of the care team, or simply an end user viewing reports – PRIA's ease of navigation and sophisticated data allows anyone to decide how much information they want, and how deep they want to dive.

# What providers had to say after viewing a demonstration of PRIA

*“Looks like it’s **very intuitive and easy to use**. Usually, these types of systems are valuable because I can trust the data....It’s all about the data first and then the system’s ability to **translate that into insights**.”*

*“**Cool and awesome views**. I will want time to see how my team members could use this and are currently interacting with the data they are using.”*

*“**Super Cool tool!** I’d love to have time to dive into this tool and play with the data.”*

# Offered at no cost to you

We are committed to helping providers on APM agreements meet and exceed contractual goals.

- **Offered at no cost to eligible providers**
  - You will never be charged licensing or associated costs to use PRIA
- **Free support**
  - Dedicated Asuris support teams
  - Ongoing support and help
