

Two ways to save and stay healthy with home delivery medications

Choose Amazon Pharmacy or Express Scripts Pharmacy

In today's convenience-driven world, many employees want prescriptions delivered right to their door. It saves time and money—and makes it easier to stay healthy.

You can offer your employees Amazon Pharmacy¹ with access to MedsYourWay^{TM2} or Express Scripts Pharmacy for easy home delivery of covered maintenance and preventive prescription and over-the-counter medications. With either option, your employees get:

- Free shipping
- Discreet packaging
- Up to 90-day fills at a time
- 24/7/365 access to a pharmacist
- Online medication management
- Purchases that apply to their deductible and out-of-pocket max
- Ability to use health savings account dollars
- Coordination between the home-delivery vendor and Regence

Amazon Pharmacy¹ with access to MedsYourWay² also offers your employees these extras:

- Built-in discount pricing that automatically surfaces the lowest price during checkout
- 5-day shipping; 2-day for Amazon Prime members
- Medication details, price comparisons, status updates and easy ordering that's just like shopping on Amazon

Each option provides savings, speed and convenience—all with your employees' better health in mind.

Talk to your producer or Regence sales representative today about which option will best fit you and your team.

¹Amazon Pharmacy does not dispense Schedule 2 controlled substance drugs. These are drugs with a high potential for abuse.

²Administered by Inside Rx LLC. Limitations apply.

Amazon Pharmacy is a separate company that provides pharmacy home delivery services for Regence members.
