### POSITION STATEMENT

The AAP/ACOG guidelines are supported by the health plan because they are based on scientific evidence, and where evidence is lacking, on panel consensus judgment. The guidelines reflect the current standard of care.

### GUIDELINE ADOPTION AND RECOMMENDED USE

This guideline has been adopted based on nationally and locally recognized sources. This guideline is based on the most recent medical evidence at the time of the report or on a consensus of panel experts. The health plan adopts guidelines to help practitioners and members make decisions about appropriate health care for specific medical conditions. Guidelines are not a substitute for professional medical advice.

## BENEFIT DETERMINATION

Benefit determinations should be based in all cases on the applicable contract coverage. To the extent that there are any conflicts between these guidelines and the contract language, the contract language takes precedence.
