

ACCELERATE

Coverage that's both affordable and right for the times

Accelerate delivers flexibility during challenging times, with benefit options designed to meet the evolving needs of your business and your employees. With predictable costs that can lead to health care savings and more ways to access virtual care, count on us for peace of mind when you and your team need it most.

Simple, cost-effective care

When employees have quick access to care the way they want it—at a budget-friendly price—it's easy to be proactive about their health. Accelerate is:

Convenient: Have a virtual doctor visit via phone, video chat or secure text messaging, available 24/7. In-person office visits are also covered.

Cost-effective: Know what care costs with a simple copay structure, featuring copays as low as \$0 for virtual visits.

Comprehensive: Deliver the traditional medical and pharmacy coverage your employees expect, plus well-being programs and extras like MedSavvy®, a market-leading prescription transparency and safety tool.

How virtual care can help

Whether it's the weekend, after hours or during a break at work, virtual care is just a tap or click away through the Asuris app or [asuris.com](https://www.asuris.com). During a virtual visit, a doctor can diagnose and treat conditions, prescribe medications, give follow-up care, and advise your employees on getting care from a specialist if needed. With copays as low as \$0, your employees can schedule virtual visits with a doctor or mental health provider and receive care wherever they are.

CARES Act-compliant

Specific to the Coronavirus Aid, Relief, and Economic Security Act, Asuris will ensure you stay compliant with rules for COVID-19 coverage, new high-deductible health plan telehealth rules, and new rules about using health savings account funds for over-the-counter medications—even if things change.

Copays as low as \$0
Unlimited virtual doctor visits

Want to learn more? Please contact your Asuris sales representative.

Virtual doctor visits with Doctor On Demand™ are embedded for 51-100 fully insured groups; 101+ fully insured groups have an option to purchase Doctor On Demand or MDLIVE.
