

STAYING WELL

Vaccinations help keep your employees healthy

Vaccinations are a simple way to protect your employees' health and play an important role in preventive care.

Flu and COVID-19 vaccines are safe and effective at protecting against severe illness and can substantially reduce the risk of doctor visits and hospitalization.

Help your employees get vaccinated quickly and conveniently with an on-site vaccination clinic.

How an on-site vaccination clinic works

- You contact and schedule a clinic with a vendor listed on the back of this flyer.
- You choose a national vendor for employees outside your state.
- Flu and COVID-19 vaccinations are covered at no cost for employees and covered dependents.
- You can even arrange vaccinations for employees and dependents who aren't Regence members.
- Some vendors also offer other routine vaccinations.

Contracted vaccination clinic vendors

Vendor name	Vaccines offered	Contact information	Location	Participants required
LabCorp Employer Services	Flu and hepatitis B	Carly Contorno contoc1@labcorp.com 206-945-8891	National	30+

If your Regence plan includes a pharmacy benefit, you may set up an on-site clinic with Costco or Walgreens. Your employees with pharmacy benefits may also visit a local Costco, Walgreens or any other in-network pharmacy that offers vaccinations.

Pharmacy	Vaccines offered	Contact information	Location	Participants required
Costco	Flu, COVID-19, TDAP* *At warehouse locations only	Pharmacy Client Operations RxClientOps@regence.com	National	100+
Walgreens	Flu, COVID-19, TDAP, pneumonia, shingles, RSV	Pharmacy Client Operations RxClientOps@regence.com (Employers interested should complete and submit this request form: wagsoutreach.com/contact-us)	National	50+ and minimum 21-day advance notice required. A clinic management fee will be charged based on the number of participants.

Frequently asked questions

How can I be sure my plan covers a vaccination clinic?

Our standard contracts cover on-site vaccination clinics. Some plans may have a different benefit. Call Customer Service at 1-888-367-2116 to confirm that your plan covers a clinic.

What if my employees get a flu, COVID-19 or other vaccination on their own?

If an employee gets vaccinated by an in-network provider, it will be covered at no out-of-pocket cost. If they use an out-of-network provider, they may have to pay for their vaccination. To be reimbursed, they'll need to submit a claim

with an itemized receipt by signing in to regence.com. Their deductible or copay may apply. For COVID-19 vaccinations, the dispensing provider will bill all cost-shares to Regence. Members pay no out-of-pocket costs.

Is it safe to get a flu vaccine and a COVID-19 vaccine at the same time?

Yes. Getting both vaccines at the same time is safe and recommended if the eligibility and timing for each vaccine are right. It's often more convenient than having two separate visits.
