

Regence 2022 Annual Overview

A message from Claire Verity

Regence

This past year was filled with hope and possibility as we all began to emerge from the pandemic. At Regence BlueShield, we continued our commitment to making health care better, and along the way we seized new opportunities to improve the lives of the people we serve.

In 2022, we added hundreds of behavioral health providers to our network to not just boost access to care but to ensure members get the mental health care they need when they need it.

We provided our members with a best-in-class digital experience on regence.com and the Regence app that they can use to empower themselves to make informed choices about their health.

We gave back to the community through partnerships with local nonprofit organizations to advance equity through

whole-person health and to allow more people to live their healthiest lives.

More than 100 years after Regence was founded, our financial stability and sustainable growth allow us to keep making health care easier for Washingtonians through innovation, investment and a deep connection to the communities we serve.

Thank you for your trust in us, now and in the future.
